MORE MOVIES:

"**Liberty Bound**" is the other Feature Documentary Making Waves in France, that takes the message even further. Director, Christine Rose asks the most difficult questions about where we are from an historical perspective and shares the disturbing answers. She caught the first Big Lie told on 9/11. Listen to the tapes. Meet the victims of the Patriot Act. Watch the story of the American Empire unfold. See the European cut. Available on DVD after July 4th. www.libertybound.com.

"**Fog of War**" is for all your Republican and fence-sitting friends. No one can deny McNamara's lessons learned. The man who brought us the Viet Nam War finally breaks his silence and shares his "Lessons Learned" by a lifetime of waging war. If this doesn't convince someone that America needs to re-examine the government and corporate policy that "the boss is always right and your job is to make your boss look good", nothing will. Rent it at Blockbusters, or buy it and pass it around. The book may be good, but nothing can replace McNamara's sincerity in the film.

BOOKS

"**How to Get Stupid White Men Out of Office.**" by Soft Skull Press. Just read the first few pages and you'll be hooked. This book is written by winners. People who succeeded at the mission of turning their small worlds around share their tactics. Some are better, more entertaining writers than others, but you can't miss the message that every vote counts. If you don't do anything else, VOTE. And if you feel like doing something, the books is full of them.
